

**ProSys, a Cisco Gold Certified Partner,** specializes in customized technology infrastructure solutions. ProSys brings together customized IT solutions, comprehensive engineering expertise and best-in-class products to offer its clients the ideal solutions for their unique business requirements. Our mission is to provide customers with the highest return on investment from our suite of services and strategic partnerships.

As a Cisco Gold Partner, ProSys had to surpass the stringent personnel, training, customer satisfaction, specialization and post sales support requirements set forth by Cisco. Gold Certified Partners are recognized and rewarded for having some of the industry's most highly trained network consultants who have achieved and are capable of demonstrating high levels of expertise in planning, designing, implementing and supporting Cisco network solutions. This well-trained team of network consultants is audited annually to make sure it is consistently delivering industry leading support and maintaining the rigorous Cisco standards for network expertise and support capabilities.

Gold Certified Partners deliver the highest level of support and are held to Cisco standards of impeccable customer satisfaction.
